

NOTICE TO MARINERS

Issue date: 04/06/2020 (rev 1)

1. Pre Lay Survey and Boulder Clearance Operations.

Please be advised that Moray Offshore Windfarm (East) Limited (Moray East) are planning to commence pre lay survey operations using Stril Explorer in preparation for forthcoming cable lay and trenching work scope on the Export Cable routes (OEC) circa 19th of June 2020. Survey areas shown below in figure 1, 2 and 3. Upon completion of the survey the Stril Explorer will commence boulder picking using an orange peel type boulder grab and work-class ROV (with video & sonar for subsea positioning of the grab) in order to clear the cable route ahead of the laying of the export cable (at a later date via a different vessel). Boulders are intended to be repositioned subsea (not removed) and the final quantity to be repositioned is expected to be circa 120. Expected duration of the boulder picking works is between 10-14 days, depending on weather, commencing circa 23/06/2020 (depending on the progress of pre lay survey).

Stril Explorer	
General Description and Dimensions:	LOA:76.40 m, Beam: 16.2 m, Draught 4.75m
Call Sign:	LAZT7
MMSI:	259066000
On Board Contact:	Master
Offshore Manager / Party Chief:	N/A
E-mail:	
Onshore Representative:	

3. General Safety Advice

Please be aware that by virtue of its mode of operation the Stril Explorer will be Restricted in her Ability to Manoeuvre (RAM) as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972, Rule 3). Masters of vessels are therefore requested to maintain their vessels and gears at a minimum safe distance from the vessel of **500 metres** when it is undertaking work and showing the appropriate shapes and lights in accordance with COLREGs Rule 18.

Further updates and Weekly notice of operations can be accessed in the Moray East Website
