

**NOTICE TO MARINERS**

**Issue date: 28/10/2020**

**1. Inter Array Cable Burial works**

Please be advised that Moray Offshore Windfarm (East) Limited (Moray East) are carrying out Inter Array Cable (IAC) burial works within the bounds of site 1. The cable trenching (post lay burial) will be completed by tracked-on bottom trenching tools. WROV surveys will be conducted once the cable is buried.

Two trenching support vessels ,Grand Canyon 3 and the Boskalis Ndeavor, will be completing operations on the cable routes identified in Figure 2.

Both vessels will complete launch and recovery operations of the trenching tools, and will be restricted in their ability to manoeuvre during trenching and WROV operations.

The overall work scope will be carried out in 2 campaigns – Campaign 1, commencing 07/11/20 to 03/01/20 and Campaign 2, commencing 20/02/21 to 12/05/21.

IAC Support Vessel Grand Canyon	
<b>General Description and Dimensions:</b>	Support Vessel LOA: 127.75 m, Beam: 25.2m, Draught 6.7 m

## 2. General Safety Advice

Users should consider the contents of this NtM when passage planning under the associated requirements of the SOLAS V Regulation 34 and continue to comply with COLREGS at all times as a priority. Further guidance to mariners transiting in the vicinity of UK wind farms is provided in MCA Marine Guidance Note 372.

Mariners are requested to navigate with caution, to use all means appropriate to aid safe navigation as defined under COLREGs Rule 7, and keep continued watch on VHF Ch. 16, 87 and 73 when navigating the area.
